Retouch

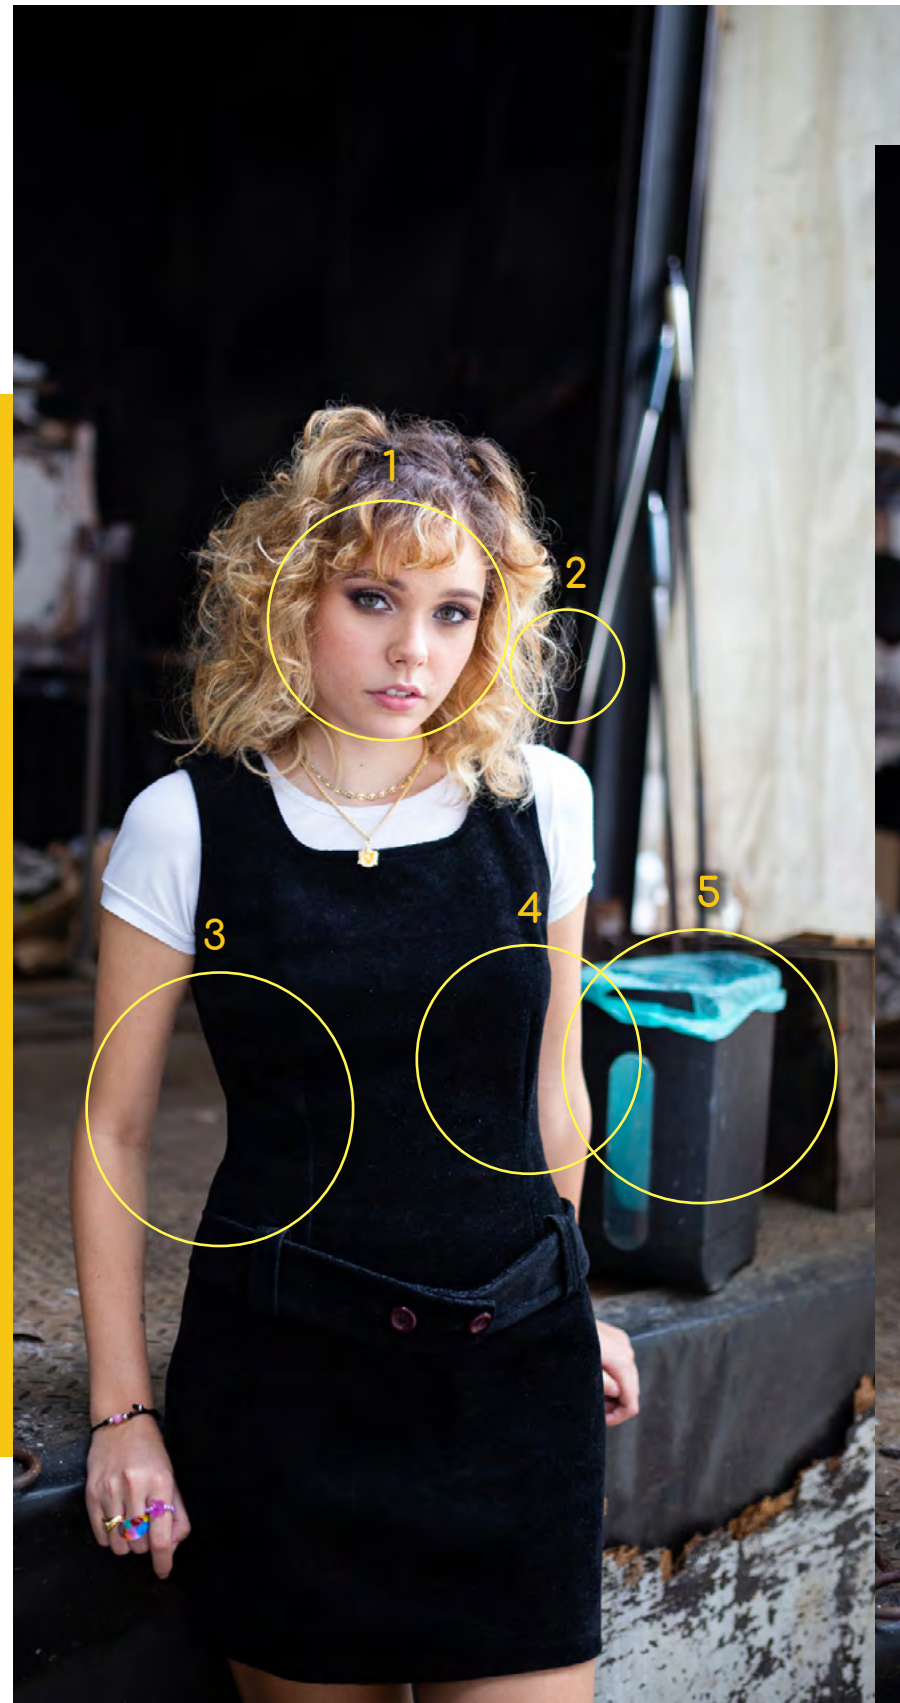

Quality improvement

- Brightening, sharpening and removing glares, Adobe Photoshop
- Quality enhancement, [app.remini.ai](https://www.app.remini.ai)
- Drawing disformed details
- Color improvement
- Using the photo in a CV (p. 23)

Magazine

1. Face enhancements
 - Eyes enlargement and angle twisting
 - Lips enlargement
 - Slight mouth line bending for a semi-smile
 - Straight teeth manual drawing
2. Excessive hair removal
3. & 4. Waist narrowing and breast enlargement
5. Background enhancement

Old photo recovery

- Defects removing
- Quality improvement, Adobe Photoshop + app.remini.ai
- Missing face drawing. Intentional blurriness, due to not knowing what the person's face actually looked like.

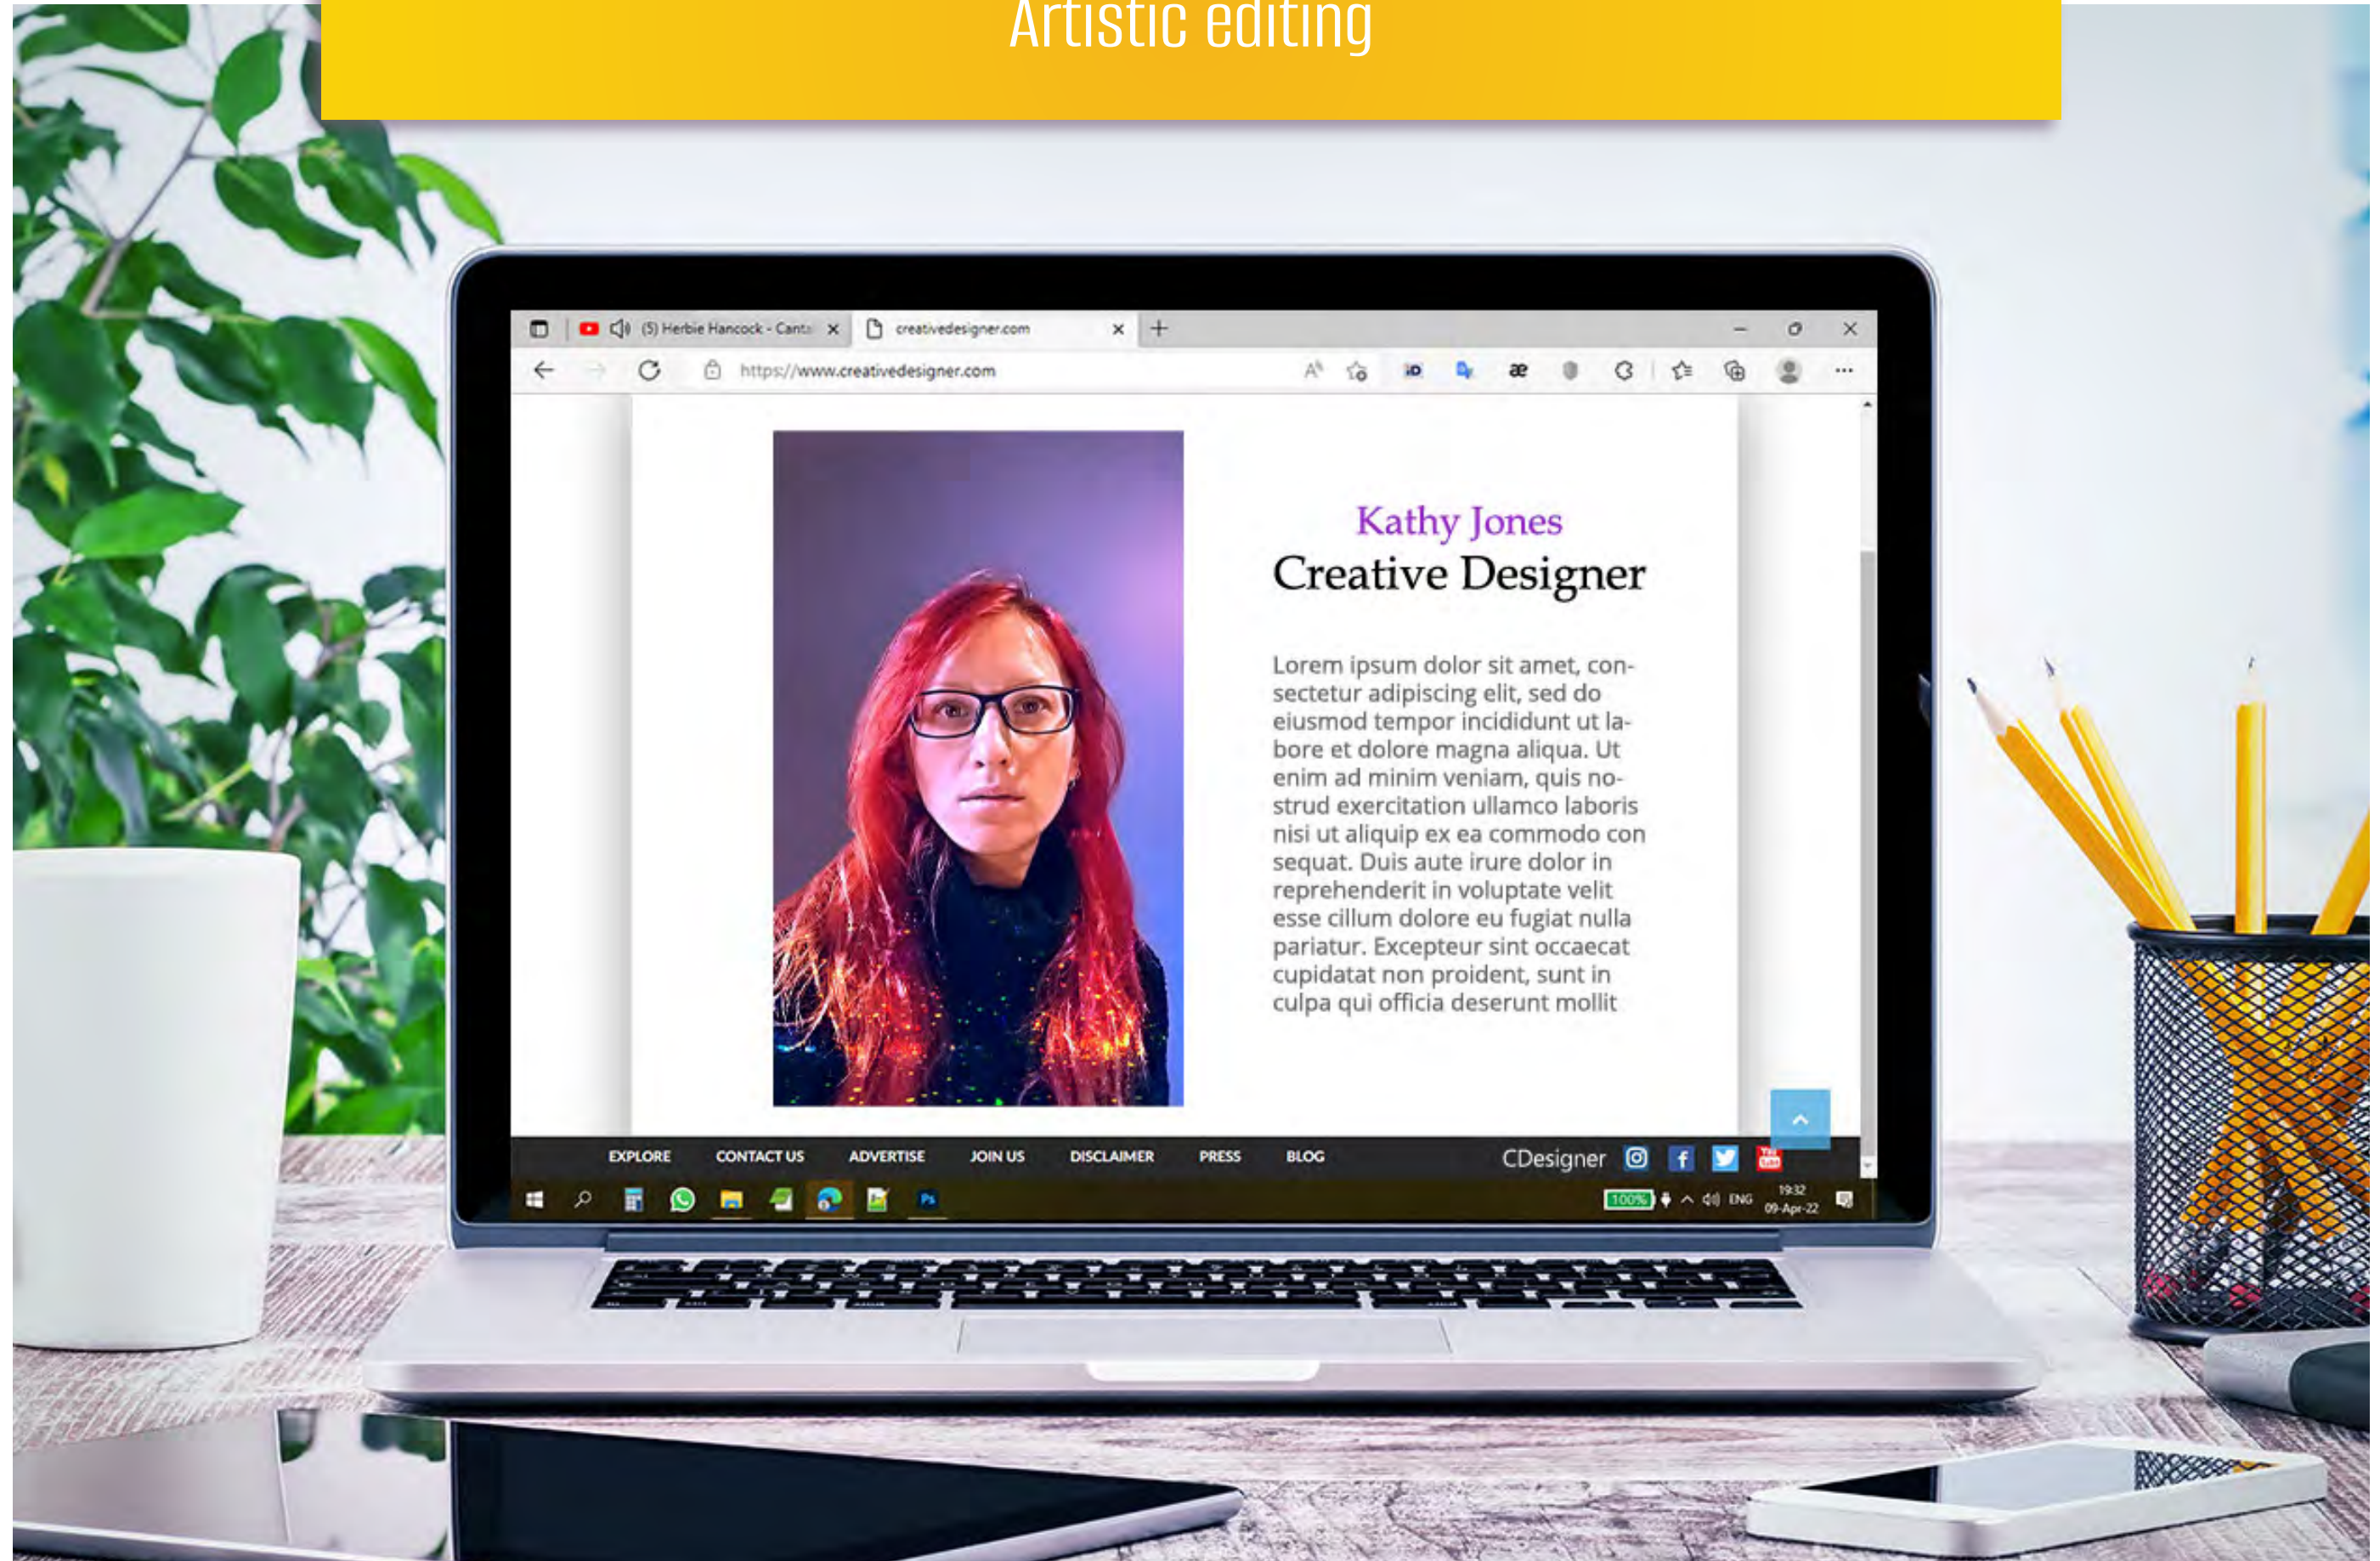

Refine selections

- Collage making
- Object enhancement (color adjusting, eye brightening, fur edges refining, cutting out the plants from behind the mouth)

Artistic editing

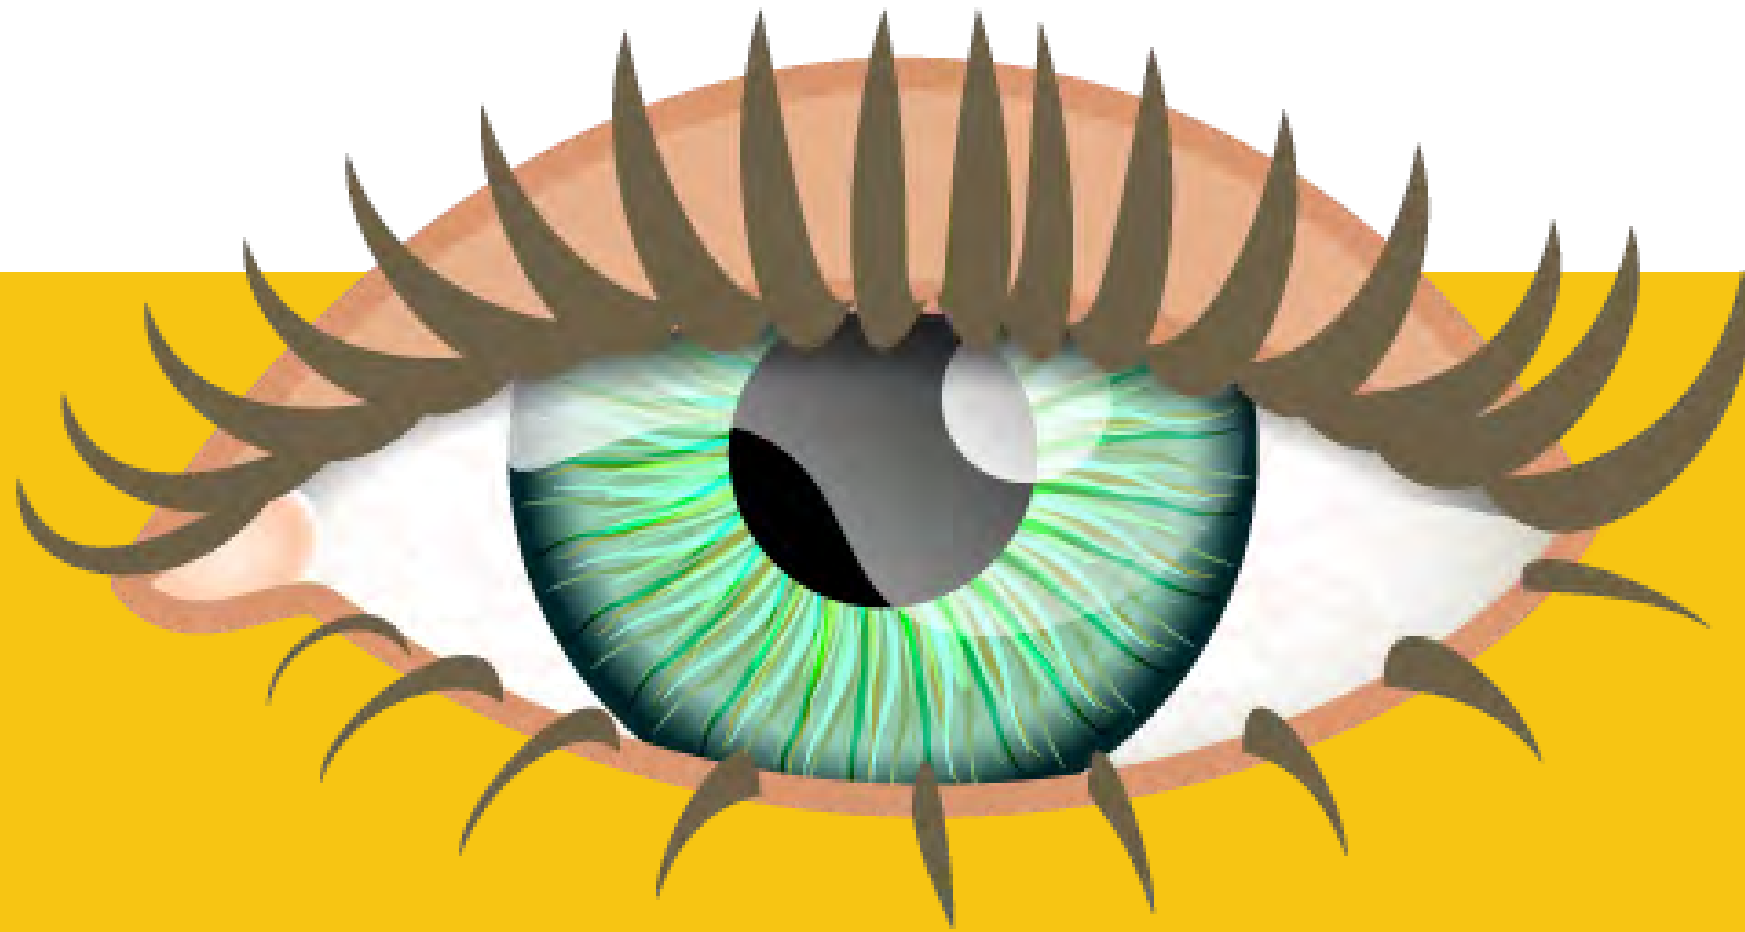

- Sharpening, Photoshop + [app.remini.ai](https://www.remini.ai)
- Color changing
- Background objects removing
- Special effects adding (shining dots)
- Excessive hair removing and hair adjusting

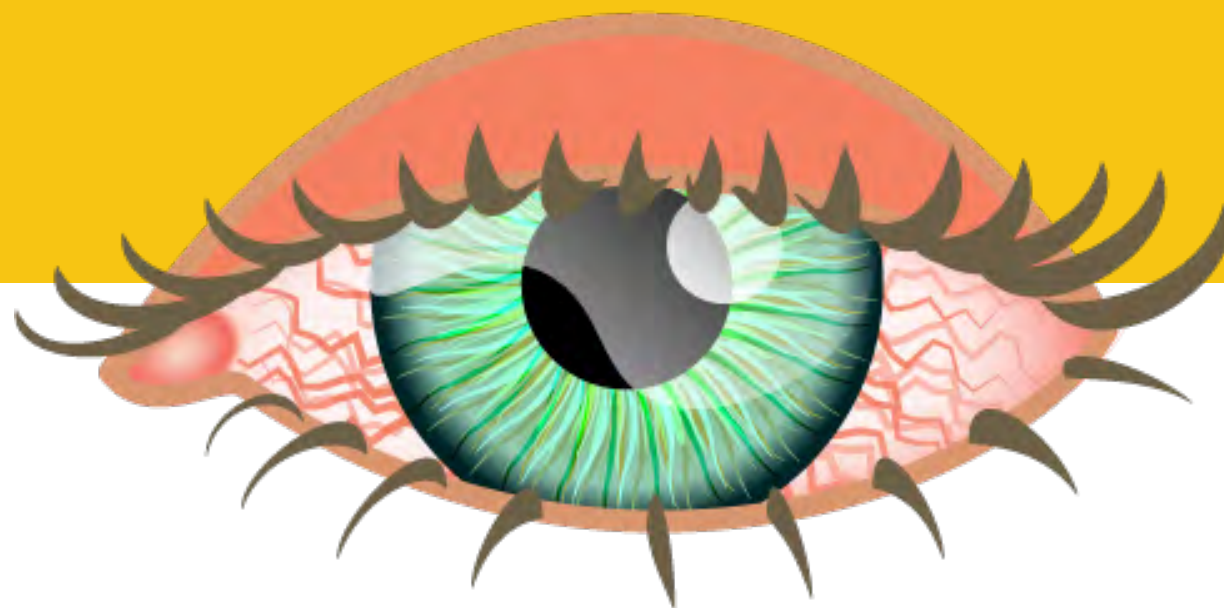

Vector graphics

Eye

- Drawing an eye in Adobe Illustrator
- Second version “Infected eye” creation
